## DR. DOTY UNFIT FOR HIS POST

New York Evening Telegram, December 5.—Charles N. Bulger has recommended to Governor Dix that Dr. Alvah H. Doty be removed as health officer at the port of New York. Dr. Doty may make a reply to the findings of Mr. Bulger on his investigation of the health officer's administration today, when he will receive a copy of the report.

Mr. Bulger finds that Dr. Doty, who was appointed health officer on January 2, 1895, "has failed utterly to maintain an efficient quarantine at the port of New York." He finds the business administration of the office was "replete with evidence of gross incompetency and inexcusable negligence."

In his findings against Dr. Doty, Mr. Bulger criticizes his permission of the passengers of the steamship Argentina, in 1909, to proceed to Ellis Island when there were several cases of smallpox on board; allowing Colonel Waring when he came home dying of yellow fever to be taken to his home; permitting the steamship Laura, in June last, to go to her pier in Brooklyn after learning that two of her passengers had cholera; allowing the steerage passengers of the Duca degli Abruzzi to depart from quarantine within the period of four days from their last exposure to cholera and the remaining passengers within five days after such exposure, and allowing Patrick Cushing, hospital guard, who had been exposed to cholera, to go to his home on Staten Island, where he became ill and had to be taken to Swinburne Island, where he died of cholera.

Dr. Doty is also accused in the report of allowing deputies to receive dutiable goods from incoming steamships and land them at quarantine without knowledge of the customs officers; that he allowed the office at Rosebank to be used as a rendezvous for lewd persons of both sexes and for gambling and other improper purposes; that his private secretary was allowed to purchase coal from a broker at prices forty cents a ton above current prices, and that during that time the broker loaned the secretary \$5000, which has never been repaid. Dr. Doty is also accused of improv-

erly using the quarantine transports for pleasure parties, which cost the state \$12 an hour, and that such practices amounted to a misappropriation of public funds.

### WAVE OF CRIME

#### SWEEPS SPOKANE

SPOKANE, December 12.—The third murder committed in this city within four days was discovered this morning when the body of Frank Pasquale, an Italian expressman, was found lying in the street a few rods from his home. A bullet hole behind the left ear caused his death. Robbery was not the motive, as \$30 was found in his pocket. He leaves a widow and four children. Following the dozens of hold-ups, burglaries and robberies reported in the last week, the police have begun rounding up suspicious characters for jail sentences or to be run out of town.

### JUST A LITTLE EARLY

To talk about Christmas out of town is a little premature, but it is well to keep Haleiwa in mind. Unusual preparations are being made to entertain those who prefer a day away from home to the bother of planning a dinner and to entertain company. It's rather difficult, too, to manage a golf links in the average yard of a city residence. Haleiwa affords the best there is and a tennis court that is all that could be desired by the most enthusiastic wielder of the racquet. Keep Haleiwa in mind if you are planning to leave town.
